At Surrey Ceramics, we produce bespoke crockery for the hospitality industry. With over 30 different glazes and 200 different shapes, you choose a combination that complements your restaurant.

Based in one of the last working potteries in the south of England, we don't use a production line to create your crockery. Instead, we hand press and glaze your products; ensuring quality and durability in everything we create.

For more than 60 years we have been creating bespoke crockery for the catering industry. We produce tableware for large chain restaurants such as Wagamama right down to small independent cafes such as The Find.
